PROFESSIONAL EXPERIENCE

Business Analyst

ConsultAdd Inc. - PUNE

July 2024 – April 2025

RESPONSIBILITY –

Project: Worked on LOG1, a portal centralizing consultant data to streamline submissions and enhance transparency in consultant interactions. Enabled marketers to manage candidate submissions, track statuses, and schedule interviews, reducing redundancy and improving team clarity.

- Collaborated with cross-functional stakeholders including Marketing, Product, Recruitment, and technical teams to gather, validate, and prioritize business requirements.
- Created business process documentation and workflow diagrams to support system enhancements and ensure shared understanding among technical and non-technical teams.
- Conducted in-depth analysis of the US job market to identify trends in demand for technologies, roles, and industries, enabling data-driven decisions for consultant placements.
- Led stakeholder workshops to identify internal inefficiencies, define KPIs, and recommend solutions for improving onboarding, reporting, and client engagement workflows.
- Acted as a liaison in vendor/client discussions; supported the on-boarding of 3 international partners and coordinated communication during implementation.

DELIVERABLES: BRD, FRS, BPMN/Process Maps, Insights Report, SWOT, User Stories, Vendor Onboarding, UAT, GAP Analysis, AS-IS/TO-BE, RTM

STRATEGIC OUTCOMES-

- Led the creation of a structured consultant training guide, resulting in a 35% improvement in interview success rates.
- Contributed to the successful on-boarding of 9 new vendor partners, including documentation and support for MSA sign-offs.
- Participated in the roll-out of 5 key portal features, enhancing user experience and reducing manual work for marketers and recruiters.

RESPONSIBILITY-

- Managed sales growth initiatives and maintained strong customer relationships, with 35+ retailers, within the assigned geographic region, ensuring consistent engagement and satisfaction.
- Developed and executed strategic sales plans to meet targeted revenue, using market insights and customer feedback, resulting in 15% increase in the revenue in the later half cycle.
- Marketed new articles and products to the existing clients, managing a diverse range of products, 150 + footwear articles.
- Made weekly tours around the assigned territory, meeting with the existing clients to maintain the relationship.

BUSINESS ANALYST CASE STUDY PORTFOLIO/ PERSONAL PROJECTS - [GitHub](#)

- **Health-first Care – Hospital Workflow Optimization Project | Business Analyst | Domain – Healthcare / Digital Transformation**
Led a healthcare process improvement initiative focused on reducing patient wait times, automating appointment scheduling, and improving interdepartmental communication. Engaged stakeholders across clinical, admin, and IT teams, conducted gap and risk analysis, and designed To-Be workflows for improved service delivery.
