PROFESSIONAL SUMMARY

Data Science graduate with practical experience in Python programming, machine learning, and analytics. Eager to contribute to data-driven problem-solving in a dynamic team environment

EDUCATION

M.Sc. Data Science April 2024
Loyola College, Chennai

B.Sc. Computer Science August 2021
St. Joseph's College, Trichy

TECHNICAL SKILLS

Languages | Python, C++, PHP
Database Management | SQL, MongoDB
Data Visualization | Power BI, Tableau
Libraries | Pandas, NumPy, Matplotlib, TensorFlow
Developer Tools | Git, Docker, Jenkins, Visual Studio Code

WORK EXPERIENCE

Assistant System Engineer Aug 2024 – Feb 2025
Tata Consultancy Services (TCS) Chennai

- Provided technical support for infrastructure systems.
- Maintained system logs and conducted performance monitoring.
- Assisted in resolving system issues by collaborating with cross-functional teams.
- Ensured system uptime and reliability through structured incident management.

Data Science Intern Jan 2024 – Apr 2024
Rockg Micro technologies Trichy

- Analysed retail sales to uncover trends and improve business strategies.
- Created data visualizations to highlight key insights such as customer behaviour and product performance.
- Developed interactive dashboards in Power BI to present findings and support data-driven decision-making.

PROJECTS

Deep Forgery Detection | Python, Keras, CNN, Image Processing

- Built a CNN model in Keras to detect forged images and verify authenticity.
- Handled data preprocessing, augmentation, and model training on large image datasets.
- Evaluated model performance using standard classification metrics and improved detection reliability.
- Collaborated with team members and presented project insights during regular reviews.

Article Perception Analyzer | Python, NLP, Scikit-learn

- Developed an NLP-based system to analyze article sentiment and detect emotional tone.
- Applied TF-IDF for feature extraction and implemented topic modeling algorithms.
- Built classification pipelines using Scikit-learn for sentiment and emotion detection.
- Collaborated on model tuning and shared insights through documentation and discussions.
