Technical Skills:

- MS Excel (Pivot Tables, VLOOKUP)
- Power BI (Data Visualization)
- SQL (Joins, Subqueries)
- Business Intelligence
- Python

Interpersonal Skills:

- Critical Thinking
- Decision-Making
- Effective Communication
- Analytical Thinking
- Team Collaboration

WORK EXPERIENCE:

ELGi Equipments Ltd | Market Research Intern | June 2025 - Present

- Conducted comprehensive **primary market research** across industrial clusters to evaluate the demand for air compressors (EG, EQ, EN series) across diverse sectors.
- **Visited multiple factories** and engaged with key stakeholders (production managers, procurement officers) to assess **customer needs**, **product usage patterns**, and **buying behavior**.
- Designed and executed **targeted market surveys** to collect actionable insights; analyzed qualitative and quantitative data to identify **customer segments**, **unmet needs**, and market trends.
- **Collaborated** with the product and sales teams to relay research findings and help align **product positioning strategies** with actual market requirements.
- Applied **data-driven approaches** for evaluating **product-market fit**, supporting potential product development and go-to-market strategies.

M/s Pro Med Polyclinic | Associate Manager | March 2022 – Jun 2024

- **Achieved a 10x revenue growth** within 5 years.
- **Boosted profit margins from 15% to 20%** by negotiating bulk purchase discounts, making cash payments to traders, and optimizing inventory turnover.
- **Increased customer footfall by offering 10% extra cash discounts** on pharmacy purchases, resulting in higher customer retention and repeat visits.
- **Reduced stockouts by 45% and cut excess inventory by 20%** using data-driven demand forecasting through Marg software, ensuring optimal stock levels and minimizing expired stock losses.
- **Improved revenue collection cycle by 30%** through direct cash payments to traders, allowing better cash flow management and quicker stock replenishment.

ACADEMIC PROJECT:

SQL Bootcamp Project: By Ankit Bansal (Namaste SQL)

Tools Used: SQL, Excel

- **Designed and optimized relational database schemas** by creating tables with composite primary keys, foreign key constraints, and implementing data integrity rules using CHECK, DEFAULT, and NOT NULL constraints.
- **Developed complex SQL queries** involving subqueries, CTEs, aggregate functions, GROUP BY, HAVING, and advanced joins (inner, left, right, full outer, cross, and self joins) to analyze business data such as average order values and customer segmentation.
- **Performed data transformation and cleaning operations** using string and date functions, CASE statements, and UPDATE clauses; practiced pivot/unpivot operations and created temporary tables for performance tuning and modular query building.

ACHIEVEMENTS & CERTIFICATIONS:

- **IBM Certification:** Business Intelligence
- **IELTS (International English Language Testing System)** – Overall Band Score: **7.0**
- Qualified **Civil Services Prelims** and written Mains Twice.
- Qualified all stages of **J&K Sub Inspector Examination** (Merit Out).
- **Udemy Excel for Analyst** Certification.
- **Google Data Analytics** Certification.
