Jan 2024 – Mar 2024

- Provided technical assistance for Kit19 tool and CRM software, managing queries through support tickets and calls.
- Resolved client issues promptly and escalated complex problems to internal teams when needed.
- Worked with the customer retention team to ensure high satisfaction and minimize churn.
- Maintained support records, performed basic data analysis, and documented repeated technical issues for internal process improvements.

Education Intern, Astitva Welfare Foundation

Feb 2024 – Apr 2024

- Conducted data collection and analysis on educational outcomes of 500+ students using Excel.
- Designed dashboards and charts to visualize key performance indicators for NGO reporting.

PROJECTS

Encrypted Chat App (Python)

Developed a real-time socket-based chat app with custom encryption for secure peer-to-peer communication.

Web Application Firewall (Python + Nginx)

Created a lightweight WAF leveraging Nginx logs and Python filters to block SQL Injection and XSS attacks.

TECHNICAL SKILLS

Languages: Python, C++, C, SQL, JavaScript

Web: HTML, CSS, Nginx

Libraries/Frameworks: BeautifulSoup, Selenium, PyTorch

Tools: Git, VS Code, Tableau, Excel

Concepts: Prompt Engineering, Web Security, Data Structures

SOFT SKILLS

- Strong Customer Communication and Client Handling
- Problem Solving and Technical Troubleshooting
- Team Collaboration and Time Management
- Data Analysis and Documentation
- Adaptability and Professional Ethics
