EDUCATION

Acropolis Institute of Technology and Research

Bachelor of Technology in Computer Science and Engineering

CGPA: 7.57

Indore, India

Aug 2020 - Jun 2024

WORK EXPERIENCE

AbleSpace

Full Stack Developer

Delhi, India

Jul 2025 – Present

- Developing HIPAA and FERPA-compliant web applications and management platform serving 10,000+ professionals across school districts
- Building scalable web modules for IEP goal tracking, service time logging, progress reporting, and Medicaid billing functionality using modern web technologies
- Implementing AI-powered web features for automated goal creation, note generation, and educational assessments
- Contributing to responsive web development with Next.js and NestJS backend architecture
- Collaborated with cross-functional engineering teams using GitHub Actions for secure CI/CD and risk-managed deployments
- Followed SDLC and application development lifecycle, adhering to secure coding practices and compliance needs
- Key Technologies:** Next.js, NestJS, Node.js, React, PostgreSQL, TypeScript, GitHub Actions, AWS, Docker, REST APIs, Web Development.

Newzenalpha Tech Pvt. Ltd

Software Developer

Bangalore, India

Dec 2024 – Jul 2025

- Architected and developed multiple Shopify applications including TagMaster (product tag management), SyncSphere (inventory synchronization), and Shopyfi marketplace platform
- Built full-stack e-commerce solutions using Node.js backend services, React/TypeScript frontend, and PostgreSQL databases
- Integrated Shopify REST and GraphQL APIs for seamless data synchronization and real-time analytics dashboards
- Deployed scalable applications on AWS infrastructure using EC2, S3, RDS, and Route 53 with custom domain management
- Implemented dynamic badge injection systems and multi-store inventory synchronization features
- Key Technologies:** Node.js, Express.js, React, TypeScript, PostgreSQL, Shopify API, AWS (EC2, S3, RDS), GraphQL, REST APIs, Docker

Kinzy Club

Backend Developer

Bangalore, India

Nov 2024 – Dec 2024

- Designed and implemented scalable backend services for AI-powered children's creativity platform (ages 3-10)
- Developed full-stack modules using Java 17, Spring Boot, PostgreSQL, and Redis in microservices architecture
- Built RESTful APIs following enterprise-grade application development standards and debugging practices
- Contributed to frontend testing and UI prototyping using React and TypeScript for enhanced user experience
- Collaborated in agile development environment to deliver parent-kids mobile application features
- Key Technologies:** Java, Spring Boot, Redis, PostgreSQL, React, TypeScript, REST APIs, Microservices, AWS

SKILLS

- Programming Languages:** Java, C++, JavaScript, TypeScript, Python, Shell Scripting.
- Frameworks & Libraries:** Spring, Spring Boot, Flask, Django, Hibernate, Angular, ReactJS, NextJS, NodeJS, NestJS, ExpressJS.
- Databases:** PostgreSQL, MYSQL, MongoDB, Redis.
- Tools & Technologies:** Git, GitHub Actions, Docker, Kubernetes, AWS (EC2, S3, RDS), REST APIs, GraphQL, Apache Kafka, Firebase, Postman, Shopify.

PROJECTS

Bitly Clone – URL Shortener Web App

[GitHub](#) | [Live](#)

- Built full-stack URL shortener with Spring Boot, React, MySQL featuring JWT authentication and real-time analytics dashboard
- Dockerized and deployed on AWS EC2/RDS with custom domain routing and production-grade configuration

Advanced Spotify Clone – MERN Stack Music Streaming App

[GitHub](#) | [Live](#)

- Developed music streaming platform with React.js, Node.js, Express, MongoDB featuring real-time playback and chat functionality
- Integrated Clerk authentication, Socket.IO for real-time features, Cloudinary for media management, and admin dashboard

EmployeeHub – Full Stack Employee Management System

[GitHub](#) | [Live](#)

- Created employee management system with React.js (Vite), Django REST API, and MySQL for CRUD operations
- Implemented React Table with search, sort, pagination features and RESTful API integration for real-time updates

AI Career Coach – Full Stack Next.js + Gemini AI Application

[GitHub](#) | [Live](#)

- Built career coaching platform using Next.js 15, React 19, Tailwind CSS, integrating Gemini AI for interview prep and resume insights
- Implemented Clerk authentication, background task scheduling with Ingest, and deployed using NeonDB and Vercel
