

ADITYA PANDEY

Graduate, Department of Chemistry

in Aditya Pandey ✉ pandeyaditya9562@gmail.com | 📞 +91-8976075229

ACADEMIC QUALIFICATIONS

Year	Degree/Certificate	Institute	CPI/%
2021 - 2025	B.S (Chemistry)	Indian Institute of Technology, Kanpur	6.8/10.0
2020	CBSE(XII)	Ryan International School, Mumbai	91.8 %
2018	CBSE(X)	St. Joseph High School, Mumbai	93.8 %

SCHOLASTIC ACHIEVEMENTS

- Secured an **AIR 6264** in **JEE-Advanced 2021** amongst **2.5 Lakh+** candidates and **AIR 7386** in **JEE-Mains 2021** (2021)
- Qualified for the **second round of Data Science Hackathon**, conducted by **IIT Kharagpur**, showcasing analytical skills (2022)
- Received **Bronze medal** in **International Olympiad of Science (IOS)** conducted by **Silverzone**, displaying scientific aptitude (2019)

KEY PROJECTS

- Uber’s Machine Learning Insight** | Self Project | 🌐 (May ’24 - Jul ’24)

Objective	-Designed and Deployed machine learning model to predict surge pricing from weather data, enhancing accuracy
Strategy	-Applied LabelEncoder and SMOTE to transform features, generating synthetic samples, improving data quality for training -Implemented Random Forest Classifier to develop a robust model for accurately predicting Uber surge price multipliers
Impact	-Achieved a test accuracy of 88% and a validation F1 score of 0.91 , showcasing strong model performance and reliability

- MathData-Empowering Data Science with Mathematical Tools** | Stamatics IIT Kanpur ((May ’23 - Jul ’23)

Objective	-Developed SARIMAX -based models to improve Netflix stock price prediction accuracy by 15% over a 6-month timeframe
Approach	-Cleaned 10,000+ data points, ran ADF tests , and used Seaborn & Matplotlib to visualize seasonal and trend components
Impact	-Enhanced anomaly detection by 20% using distribution fitting, QQ plots , and advanced statistical time series analysis

- Regression Analysis** | Econs Society IIT Kanpur ((Dec ’22 - Feb ’23)

Objective	-Developed a ridge regression model in Python to minimize overfitting by 20% and improve generalization on structured datasets
Approach	-Improved accuracy by 12% by reducing RMSE via preprocessing, feature normalization, and handling missing data effectively
Impact	-Boosted model stability by 10% using cross-validation, achieving consistent RMSE across training and validation sets

VIRTUAL EXPERIENCES

- Accenture North America Data Analytics and Visualization Job Simulation** | Forage (May ’24 - Jun ’24)

Objective	-Conducted a data analysis simulation for a social media client ,to deliver strategic, insight-driven recommendations
Approach	-Cleaned, modeled, and analyzed 7 datasets to uncover content trends and support data-informed decision-making
Outcome	-Prepared a PowerPoint deck and video presentation to communicate key insights to the client and internal stakeholders

- PwC Switzerland Power BI Job Simulation** | Forage ((Jun ’24 - Jul ’24)

Objective	-Developed a Power BI job simulation to understand client needs and refine data visualization and reporting strategies
Approach	-Built dashboards to visualize HR data, identify KPIs , and align insights with specific client-driven requirements
Outcome	-Leveraged analytical skills to assess HR data and identify root causes of gender imbalance, focusing on gender-related KPIs

POSITIONS OF RESPONSIBILITY

- Organiser, Media and Publicity** | Udghosh, IIT Kanpur (Jun ’23 - Jun ’24)

Leadership	-Spearheaded a three-tier team of 30+ Senior Executives managing publicity, content and media associations for the festival
Initiatives	-Streamlined social media strategy and coordinated event execution to ensure smooth operations across high-footfall activities (60K+ audience)
Impact	Maximized festival outreach by 40% through event publicity, covering Pronites, sports matches, and closing ceremonies

- Project Mentor** | Google Developer Student Club, IIT Kanpur (Dec ’23 - Feb ’24)

Leadership	-Led a hands-on time series forecasting project, mentoring 30+ students through weekly sessions and collaborative learning
Initiatives	-Designed and delivered tutorials on core statistical concepts like Covariance, Hypothesis Testing, and Autocorrelation
Impact	-Enabled students to apply MA, AR, ARMA, and ARIMA models on real datasets using Python and Statsmodels

TECHNICAL SKILLS

- Programming Languages:** C, C++, Python, R, MATLAB, SQL
- Software and Libraries:** MS Excel, Canva, Numpy, Pandas, Stata, Matplotlib, Seaborn, Pyspark, Jupyter, PowerBI

RELEVANT COURSEWORK

Linear Algebra & ODE(MTH-102)	Real Analysis & Calculus(MTH-101)	Fundamentals of Computing
Introduction to Electronics	Time Series Analysis	Machine Learning
Theory of Statistics	Probability Theory	Statistical & AI Techniques in Data Mining
SQL for Data Science*	Econometrics	Data Visualisation using Python*

EXTRA-CURRICULAR ACTIVITIES

Managerial	-Managed the contents and media handles of Antaragni IITK , ensuring smooth coordination of events for 75K+ audience -Organized Mathemania (1000+ participants) and Project-2023 (24 ML/stats projects) as Executive at Stamatics IITK
Social Work	-Volunteered for the conduction of flagship events and sessions for E-Cell and Finance and Analytics Club -Managed content for Prutor IITK , to provide free, high-quality JEE and NEET preparation resources to indigent students
Cultural	-Secured 2nd position in Dance and 1st in Galaxy Parade at Intra-IIT cultural fest Galaxy’23 , competing among 5 pools -Received Silver Medal in “ Pakwada ” event by Hindi Sahitya Sabha for outstanding contribution to literary activities
Sports	-Represented my pool in Inferno’24 , the Intra-IIT sports fest , and secured 2nd place in Frisbee among 5 competing pools -Demonstrated teamwork, sportsmanship, and competitive spirit as a participant in the Badminton, & Volleyball leagues
