Education

St. Joseph's University, Bengaluru M.Sc in Big Data Analytics, CGPA: 8.0	2021–2026
Calcutta University, Kolkata B.Sc in Economics Honours, CGPA: 7.5	2021–2024
Relevant Coursework: Data Visualization, Time Series, DBMS, Linear Algebra, Big Data, Advanced Excel, Machine Learning, Econometrics, DSA	
Certifications	

IIT Kanpur Certificate Program on Python for Artificial Intelligence, Machine Learning, and Deep Learning Indian Institute of Technology, Kanpur	Jan 2025
Projects	

NIFTY 50 Volatility Forecasting

- Analyzed 10 years of NIFTY 50 data (2014–2024, 2,500+ records) using Apache Spark, computed log returns and range-based volatility.
- Built a GARCH model (Python, arch), achieving 0.9674 volatility persistence (Log-Likelihood: -3508.04, AIC: 7024.08).
- Visualized trends using Plotly/HTML plots, Seaborn, and Spark SQL for high-volatility insights.

HR Analytics Dashboard – Power BI

- Developed interactive dashboard for 300+ employees, showing attrition, diversity, and recruitment metrics.
- Optimized data modeling and DAX to reduce report load time by 40%, enabling actionable HR insights.

Retail Sales Performance Dashboard using Excel

Built an interactive Excel dashboard analyzing 4 years of sales data (2014–2017) using PivotTables, slicers, and custom charts, improving insight discovery speed by 60%.

Enabled dynamic filtering across 3+ key metrics, including profit trends, customer segments, and state-wise sales.

Cryptocurrency Analyst Chatbot

- Built end-to-end chatbot integrating volatility prediction for Bitcoin, Ethereum, Solana using machine learning.
- Provided real-time insights and forecasts via Binance and CoinGecko APIs.

Experience

Data Analyst Intern, Red Dot Foundation – Safecity	May 2025–Present
- Analyzed harassment reports and built dashboards to reveal gender-based violence trends, supporting data-driven policy recommendations. - Collaborated on stakeholder reporting, applying data cleaning, exploration, and visualization.	
Data Science Research Intern, Kathmandu University School of Management (Remote)	Jun 2025–Jul 2025
- Processed 4+ lakh online reviews via Python-based web scraping and automation; applied NLP (LDA, sentiment, cultural analysis). - Built visualizations in Seaborn/Matplotlib; hands-on with data preprocessing and feature extraction from unstructured text.	
Academic Peer Tutor, St. Joseph's University, Economics Forum	Jul 2024–Dec 2025
Provided 1-on-1 tutoring in economics and mathematics; mentored students to improve academic performance.	

Technical Skills & Languages

Tools: Excel, Python, Power BI, R, **Libraries:** NumPy, Pandas, Scikit-learn, Flask, Streamlit, **Big Data:** Hadoop, Hive, Pig, Sqoop, **Soft Skills:** Communication, Teamwork, Active Listening, **Languages:** English, Hindi, Bengali
