Education

Indian Institute of Technology (IIT) Kanpur

Bachelor of Technology in Civil Engineering
Kanpur, India

Nov 2021 – May 2025

Projects

Mathematics for Data Science – Stamatics Society

May 2023 – Jul 2023

IIT Kanpur

- Applied probability, statistics, and diverse sampling techniques for data analysis.
- Developed visualizations using Matplotlib & Seaborn with Pandas/Numpy.
- Implemented Linear & Logistic regression models on e-commerce datasets.
- Utilized Random Forest and Decision Tree for kyphosis dataset analysis.

Hurricane Intensity & Path Forecasting – Course Project

Jul 2024 – Nov 2024

- Merged cone, demographic, and census data in QGIS; visualized results with Folium.
- Built an LSTM model to improve hurricane path prediction accuracy by 15%.
- Engineered temporal features such as wind speed, pressure, and geolocation changes.

Hotel Booking Data Analysis – Course Project

Jun 2024 – Jul 2024

- Analyzed booking data to identify patterns, trends, and cancellation likelihood.
- Developed ML models for booking cancellation prediction.
- Created interactive visualizations in Matplotlib & Seaborn for clear interpretation.

E-commerce Data Analysis & Database Management

May 2024 – Jun 2024

- Designed & implemented MySQL tables from CSV files with automated cleaning.
- Executed SQL queries to calculate retention rates and identify top customers.
- Visualized business metrics with Seaborn; optimized query performance.

Dynamic Sales Analysis Dashboard for E-commerce

Mar 2023 – Apr 2023

- Built a Power BI dashboard for sales, profit margins, and AOV analysis.
- Enabled interactive filtering for dynamic quarter and state-level insights.

Positions of Responsibility

Senior Executive – Udghosh

2022–23

- Led a 50+ member hospitality and security team for 500+ attendees over 4 days.
- Managed 20 lakh+ food and lodging tender across 4 venues.
- Cut souvenir costs by 30% via strategic brand collaborations.

Secretary, Public Relations – Antarnagni

2022–23

- Coordinated celebrity invitations and managed 10k+ attendee events.
- Built media relationships, issued press releases, and handled event publicity.

Achievements

- Secured Gold in Galaxy'23 (100+ participants) and Takneek'24 (300+ participants).
- Completed multiple self and academic data analytics projects hosted on GitHub.

Technical Skills

Languages: C/C++, Python, SQL

Libraries/Frameworks: Numpy, Pandas, Matplotlib, Seaborn, Scikit-learn

Databases: MySQL, PostgreSQL

Tools: Excel, Power BI, VS Code, MS Word, PowerPoint
