## EDUCATION

**Indira Gandhi Delhi Technical University for Women, Delhi, BTech in Computer Science and Artificial Intelligence** | Delhi, India CGPA: **7.57** jan 2022 - May 2025

Relevant Courses: Data Structures and Algorithms, Database Management Systems, Computer Vision, Object-Oriented Programming, Machine Learning, Computer Networks, Natural Language Processing, cloud computing, Operating systems

**M B P B M GSKV** , Senior Secondary - science stream | Delhi, India CGPA: **7.68** Apr 2019 - Mar 2021

**Gandhi Memorial GSKV** , Secondary | Delhi, India CGPA: **8** Apr 2018 - Mar 2019

## EXPERIENCE

**NOQs Digital**, data analyst Intern | Remote (India) | **Certificate** july 2023 - Aug 2023

- Worked on Technologies like **Credly**, **Excel**, **Google sheets**, **python** etc. Learned about **Data cleaning**, **data visualization**, **Decision making** , implementing Libraries like **Panda** and **Numpy**.
- Implemented **Data visualization** via google sheets and presented **Data Analysis** .

## SKILLS

Languages C++, Java, JavaScript, Python(Keras, Pandas, Scikit-learn, NumPy, OpenCV, etc.), Matlab, SQL, Git  
Expertise Problem Solving, Competitive programming, Backend Systems  
Tools & Tech Linux, VsCode, Jupyter, IntelliJ, Django, React.js, Node.js , Google sheets, Git and Github, powerBi, Tableau, Google Colab, Oracle virtual box, Weka

## PROJECTS

**E-commerce website** | SQL, Django, Bootstrap, Frontend, Backend, Database management | Feb 2022 - April 2022

- An e-Commerce website with **Backend using RDBMS(SQL)**, **Django** and Frontend using HTML, CSS, JS. With interactive features.
- Implemented **Dashboard** for the stakeholders Customers, Sellers and Warehouse Managers Having **CRUD operations**.

**Face Mask detection model** | ML, DL, Transfer learning, Python | **Github** Jan 2023 - May 2023

- Using models, **Tensorflow** , **CNN**, **stacked autoencoder** and **transfer learning** for Binary classification of 3000+ Images of Person with mask or without mask.
- For data with 2 class, we got around **98% accuracy** using **transfer learning** of **MobileNetV2** Model.

**Depression detection model** | ML, DL, NLP, Python | **Github** Jun 2024 - August 2024

- Implementation of classification models like **RNN** , **Naives Bayes**, **random forest**, **SVM** and **Logistic regression** for Binary classification of more than 7769 twitter Post data.
- Word tokenization using **Word2Vec** , **Bert** and **TF-IDF**

## CERTIFICATES

- Full stack web development **certificate**
- Cloud Computing [IBM] **certificate**

## EXTRACURRICULAR

Gaming Enthusiast of games like GTA, Genshin Impact.  
Competitive Programming Enjoys solving complex problems.  
Dance Enjoys various form of dances  
Music Enjoys listening to various genres and languages.  
volunteer work founding member of Shafaq, Queer collective of IGDTUW
