SUMMARY

I have a strong problem-solving and communication skills.

I am a proactive team player with a keen eye for detail and a passion for continuous learning.

EDUCATION

Matriculation , B.B Model High School (GPA: 61%)

Mar '17 — Mar '18
Kendrapara, India

PNS School Of Engineering And Technology (GPA: 73%)

Mar '18 — Mar '21
Kendrapara, India

KIIT Deemed to be University (GPA: 6.89)

Aug '21 — Sep '24
Bhubaneswar, India

COURSES

Artificial Intelligence Certification

Certification of Participation in PCB Workshop

ACHIEVEMENTS

Hospitality Officer

TedX KIIT University

Oct '24

Spearheaded hospitality initiatives for TEDx KIIT University, orchestrating a guest-centric experience by managing accommodations, catering, and event logistics, elevating the overall quality of the TEDx event.

Hospitality Officer

KIIT Int' MUN

Aug '24

Spearheaded hospitality initiatives for MUN KIIT University, orchestrating a guest-centric experience by managing accommodations, catering, and event logistics, elevating the overall quality of the MUN event.

PERSONAL PROJECTS

Student Performance Prediction using Multiple Regression

Jan '25 — Mar '25

- Developed a predictive model to forecast student grades based on factors like study hours and attendance using Python (Scikit learn).
- Preprocessed data with Pandas, NumPy and achieved 90% accuracy.
- Visualized key insights using Matplotlib, Seaborn to identify performance influencers.

Industrial Smoke and Gas Leakage Detector

Mar '24 — May '24

- Implementing and maintaining smoke and gas detection systems.
- Conducting regular inspections and audits for compliance with environmental regulations.
- Analyzing data from monitoring equipment to ensure early detection of leaks or emissions.
- Collaborating with teams to develop and implement strategies for reducing emissions and improving environmental sustainability.

Soil Moisture Monitoring Using IOT

Feb '23 — Apr '23

- The Soil Moisture Monitoring project utilizing Internet of Things (IoT) technology is designed to revolutionize agriculture by providing real-time insights into soil conditions.
- The system employs IoT sensors to continuously monitor soil moisture levels, enabling farmers to make data-driven decisions for optimal crop yield.

SKILLS

Programming Languages Python

Data Analysis SQL, Microsoft Excel, Power BI, Analytical Skills

Software Tools EAGLE, MS Office

Management Skills Management, Customer Service

Languages Odia, Hindi, English
