EXPERIENCE

Business Analyst Intern

TechZoetic | Dubai, UAE

Jul 2024 – Mar 2025

- Participated in functional testing of CRM and mobile/web applications built on Power Apps and ASP.NET, validated test cases, and coordinated defect logging using Jira.
- Conducted business process analysis to identify pain points in client onboarding and customer service; proposed automation solutions with Power Automate.
- Collaborated with cross-functional teams to gather requirements and translate them into functional documentation (BRDs and workflow diagrams using Draw.io and Visio).
- Assisted in identifying cloud migration strategies for on-premise infrastructure in the GCC and MENA regions, ensuring seamless transition and optimization.
- Maintained internal project documentation, dashboards, and meeting notes using SharePoint and Microsoft Teams.
- Developed an interactive Miro board to visually communicate service offerings, ensuring clients clearly understood their relevance to business needs and objectives.
- Supported client proposals and product demo development for enterprise and government sectors.
- Supported internal QA processes and test planning during feature rollout.

Business Development Associate

Miles2Smile Foundation | Delhi

Oct 2023 – Mar 2024

- Conducted market research and competitor analysis to support strategic initiatives.
- Helped draft business cases and performance summaries for ongoing projects, contributing to a 25% revenue increase.
- Created internal reports and dashboards (MIS) to support decision-making and resource allocation.
