## SUMMARY:

Aspiring Data Analyst with a strong foundation in Python, SQL, and Power BI, skilled in web scraping, data manipulation, and creating insightful visualizations. Passionate about leveraging analytical skills to drive data-driven decision-making and solve real-world problems.

## TECHNICAL SKILLS:

- **Languages and Databases:** Python, Pandas, Numpy, SQL, MySQL.
- **Visualization Tools:** Power BI
- **Other Skills:** Advanced Excel, Business Analysis, Data Analysis, Customer Acquisition.

## PROJECTS:

### Cricket Player Selection Data Analytics Project:

- Implemented end-to-end data analytics project focusing on selecting the optimal 11 cricket players globally based on their performance in the T20 World Cup 2022.
- Utilized BeautifulSoup for web scraping, data cleaning, and transformation to ensure data accuracy and reliability.
- Conducted exploratory data analysis (EDA) using Python libraries to analyse player performance across various metrics.
- Developed a dynamic Power BI dashboard to visualize and compare player performances in key roles: openers, middle-order batsmen, finishers, and bowlers.
- Applied insights from data analysis to make data-driven decisions in team selection, demonstrating proficiency in sports analytics and strategic decision-making.

### Star Galaxy Classification End-To-End Machine Learning Project:

- This is End-To-End ML project implementation.
- The aim of star galaxy classification project is to develop a machine learning model that can accurately and efficiently classify stars and galaxies based on their physical properties.
- The machine learning based classification of celestial objects presents intricate challenges including data imbalance, noisy observations, and the need for robust feature engineering.
- This study focuses on addressing these challenges and proposes innovative solutions to improve classification accuracy.

## EDUCATION:

|                                           |                            |
|-------------------------------------------|----------------------------|
| <b>MIT World Peace University, Pune</b>   | <b>Aug 2022 - May 2024</b> |
| M.Sc. Data Science and Big Data Analytics | <b>CGPA – 7.77 / 10</b>    |
| <b>C.T. Bora College, Pune</b>            | <b>Jun 2019 – Jul 2022</b> |
| B.B.A. (Computer Application)             | <b>CGPA – 8.78/ 10</b>     |
