OBJECTIVE

Data Analyst passionate about transforming data into actionable insights using AI, LLMs, and analytical tools.

Skills

Languages: Python, SQL

Frontend Technologies: HTML, CSS, Bootstrap

Databases: PostgreSQL, MongoDB (Basic understanding)

Big Data & Data Engineering: ETL Pipelines, Data Wrangling, Data Visualization

Backend Development: Flask, Fast API, Streamlit, Django

Machine Learning & AI: Scikit-learn, NLP, ML Model Deployment, Generative AI, AI Agents, n8n, cursor

Libraries & Tools: Pandas, NumPy, Matplotlib, Seaborn, Tableau

Version Control: Git & GitHub

Cloud & DevOps: Familiar with AWS, Docker, CI/CD Pipelines

Soft Skills: Communication, Team Collaboration, Critical Thinking, Analytical Problem Solving, Adaptability, Time Management, Continuous Learning

Education

Mahakal Institute of Technology

CGPA: 7.00 | Oct 2021 - May 2025

Btech in Artificial Intelligence and Data Science

Experience

Data Analyst Intern | Cognifyz Technologies

July 2024 - August 2024

- Identified top 3 cuisines, covering 60% of restaurant offerings, for market segmentation.
- Conducted city-wise analysis, pinpointing top cities for restaurant presence and ratings.

Research Analyst | Data Pure Technology LLP

February 2024 – April 2024

- Optimized ad data, resulting in a 20% increase in ad effectiveness.
- Improved cross-team communication and collaboration, increasing productivity by 20%.

TRAININGS OR CERTIFICATIONS

- Machine Learning Certification** – Duke University (Coursera)
- AI and Data Analytics Certification** – Panthak.AI

Projects

Text Emotion Analysis Project

- Built a text emotion detection model with **83% accuracy** using Scikit-learn and TF-IDF.
- Applied **NLP** preprocessing with neat text and deployed a local demo for real-time prediction.

Plant Health Monitoring System

- Proposed AI-powered plant disease detection system using CNN image classification.
- Designed system architecture using Flask/Fast API and Streamlit for real-time health monitoring (currently in progress).
- Emphasized system design, scalability, and optimization in the architecture.

Publication

Research Paper: Published a Research Paper on **Crimes Against Women in India** (Submitted for Review at Symbiosis Conference)
