Recent IT graduate with BSc in Information Technology, ready to kick start a carrier in tech. Good at solving problems, writing scripts, supporting computer systems. I learn fast, think clearly and work well with others. Looking for a role as a Junior IT Specialist where I can grow and make a difference in a creative and fast-paced environment.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY | NAVNEET COLLEGE

Oct 22- Present

- Consistently was one of the top students of the B.Sc.IT program ;**CGPA: 9.30**
- **Relevant coursework:** Data Structures, Coding, Network Safety, Databases and Building Websites.

PROJECT

- **WASTE SEGREGATION SYSTEM**
- **WASTE LEVEL MONITORING SYSTEM**

Created a smart system that can separate waste into dry and wet categories using sensors. The system also checks the dustbin's fill level with an ultrasonic sensor. When the bin is almost full, it sends the alert message to the cleaning staff using a GSM module. The project focused on automation, accuracy in sorting and quick alerts for timely action.

VOLUNTEER EXPERIENCE

NATIONAL SERVICE SCHEME

Developed excellent time management skills by balancing academic commitments with NSS activities improving teamwork and leadership qualities. I joined the NSS to give back to society and learn new things. It felt good to make a small difference in other people's lives. I also became more confident and better at communicating with others.

SKILLS

- Programming Language : Full Stack Java, Python
- Software Development: Object-Oriented Programming, MySQL
- Web Technologies: HTML, CSS, JavaScript
- Operating System: Windows
