EDUCATION

ACHARYA INSTITUTE OF GRADUATE STUDIES Master of Computer Applications (CGPA: 7.42)	November 2022 – December 2024 Bangalore, Karnataka
B.P PODDAR INSTITUTE OF MANAGEMENT AND TECHNOLOGY Bachelor of Computer Applications (CGPA: 8.54)	August 2019 – June 2022 Kolkata, West Bengal

CAREER SUMMARY

Master of Computer Applications graduate with practical experience in requirement gathering, stakeholder communication, and data-driven process improvement. Proficient in SQL, Power BI, and Python, with a solid understanding of Agile methodologies and SDLC. Demonstrated ability to translate business needs into analytical outputs and dashboards to drive operational impact.

INTERNSHIP EXPERIENCE

TATA MOTORS LIMITED Business Analyst Intern	April 2025 – June 2025 Jamshedpur, Jharkhand
---	---

- Analyzed production and operations data using **Excel, SQL, and Power BI** to identify **bottlenecks** and improve **manufacturing efficiency**.
- Created **interactive dashboards** to track KPIs such as **output volume, downtime, and defect rates**, improving **real-time visibility** for managers.
- Performed **root cause analysis** on delays and quality issues across production lines, contributing to a **12% improvement in process efficiency**.
- Worked with **operations and supply chain teams** to improve **material flow, reducing idle time and accelerating production cycles**.
- Shared **data-backed findings** with **senior managers** through reports and **visual dashboards**, contributing to changes in **production planning**.

PROJECTS

Toman Bike Share Demand & Pricing Strategy | SQL, Power BI

- Engineered a **SQL-based relational database** to manage structured bike-sharing data efficiently.
- Developed **optimized SQL queries** for business intelligence reporting, identifying **revenue trends and user demographics**.
- Integrated **SQL database** with **Power BI** to **visualize customer segmentation, revenue patterns, and demand forecasting**.
- Conducted **pricing impact analysis**, delivering data-driven recommendations for **strategic pricing decisions**.
- Architected KPI dashboards** for utilization and revenue growth, improving operational decisions by **20%**.

Netflix Movie Data Analysis | Python, Pandas, Matplotlib, Seaborn

- Executed **exploratory data analysis** on a dataset of **9,800+ Netflix movies** to uncover insights on **genre trends and popularity**.
- Preprocessed the dataset** by handling missing values, parsing date fields, standardizing genres, and categorizing ratings.
- Applied **data transformations** like exploding multi-genre fields and **quartile-based** rating categorization.
- Built visualizations using Seaborn and Matplotlib** to identify top genres, most popular movies, and yearly release trends.
- Created summary **dashboards and trend plots** to aid content strategy decisions for audience targeting and acquisition.

SKILLS

Data Analytics & Visualization:	Power BI, Tableau, KPI Dashboards, Forecasting, EDA, Excel
Business Analysis & Communication:	Requirement Gathering, Gap Analysis, Business Case Development
Programming & Data Tools:	SQL (MySQL, Oracle), Python, Pandas, NumPy, Jupyter Notebook
Cloud Platforms:	AWS (EC2, S3), Snowflake
Project Management & Collaboration:	Agile (Scrum), Jira, Presentation Tools, Git/GitHub, Functional Test Planning
